DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 are allowed.

2. The following is an examiner's statement of reasons for allowance: This invention deals with a fastening belt for wrapping electric cables comprising an elongate belt having a plurality of protrusions extending from each of two sides of the belt, a plurality of slots defined through the belt and each of said plurality of slots including an operation section, wherein each operation section being positioned offset from the slot corresponding thereto and being positioned central to said slot, each of said slots and each corresponding operation section being positioned symmetrically about a central axis, wherein each of said plurality of slots is vertically aligned with adjacent ones of said plurality of slots (claim 1). The above claim limitations, in combination with other claim limitations is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed January 3, 2005 have been fully considered and they are persuasive. Specifically, the applicant's argument that "Neither the AOAPA nor the

Simmons reference, when taken alone or in combination, teach or suggest a slot having an operation section which is positioned central to the slot and is further positioned symmetrically with regard to a central axis of the slot and the AOAPA does not include any operation section and the Simmons reference teaches away from a symmetrically positioned operation section", is persuasive and therefore the claims have been allowed.
